Dan On Foundation are delighted to have organized a summer vacation for **40 orphans**.

Orphans and our staff enjoy on the beach

Preparing 60 meals

This annual seasonal activity is designed to provide them with a memorable experience, allowing them to enjoy the beauty of Phan Thiet beach while learning the values of care and companionship.

The purpose of this summer vacation is not only to create a fun-filled environment but also to foster a sense of togetherness and teamwork among the orphans. Through their interactions and shared experiences, they have the opportunity to learn the importance of caring for one another and developing strong bonds of friendship.

DONATES \$10M TO GIVE RICHMOND HOSPITAL

For 13 years, before our donation, the hospital only had one CT scanner.

...'Which means that every day we are forced to juggle the delicate balance of sharing this critical piece of equipment between our acutely sick hospital patients as well as with our community outpatients,' said Dr. Chandler.

That is the reason Mr. Dan decided to donate **\$10M** for Richmond Hospital to get a second **Computed Tomography (CT) scanner**, which means doubling their capacity to serve those patients who are in dire need of scans. Additionally, doctors will be able to make 'more rapid diagnoses,' 'perform state-of-the-art exams' currently not available, and be able to avoid interruptions when one scanner is under maintenance.

LETTER FROM OUR CHAIRMAN

Mr On Dan Khuong

MR. DAN ON, CHAIRMAN OF DAN ON FOODS

As the year draws to a close and we gather with loved ones to celebrate another Christmas, we need to reflect on all that has happened in 2021, what it means for the global community and what it means for us as individuals. As a global pandemic ravages the world, natural disasters and social stratification exacerbate the hardship and daily struggle of those marginalized by society. I have experienced hardship; I have known hunger and loss. I know what it's like to be vulnerable, and unfortunately the most vulnerable are often the children, the elderly, the disabled, and the ethnic "Others".

For over two decades, we have made it our primary aim to protect and lift these vulnerable populations, to bring to light their plight, and to give a voice to those who can't speak out. In this regard, we have taken the initiative to spearhead humanitarian efforts such as providing immediate relief when disaster strikes as well as continuous efforts to build up a sustainable operation, enabling people to earn their income. For 2022, we have ambitious plans to expand our operations even further and deeper into the

mountainous and remote regions to reach out to the ethnic people all too often forgotten by society.

Education is a powerful tool that can enable people to lift themselves out of poverty. To encourage Vietnamese students to improve themselves and their country, we have also partnered with several universities to provide them with research grants as well as scholarships for students and study abroad opportunities for a select few to study in the US and Canada to bring back knowledge that can help make Vietnam a prosperous and globally competitive country.

LETTER FROM OUR CEO

Ms Luu Bao Hoa

CEO DAN ON FOODS

Being a socially responsible company isn't just a check in the box for us, it is a passion and commitment. Dan On Foods has spent over 20 years giving back to the community. For this upcoming year, we have redoubled our efforts to relieve

hardship for as many people as possible. This past year, we struggled with the pandemic and lockdown along with everyone in Vietnam. Savings were being used up, and the need for food security was urgent. Most of our charitable activities were focused on providing relief.

GIVE A MAN A FISH

We are always ready to help those in need, however, our aim for this year will be on building sustainability. Today's children are tomorrow's leaders, we work to not only nourish the body but also provide the opportunity to develop themselves into valuable members of society. We are not only helping those in need, we are investing in our future.

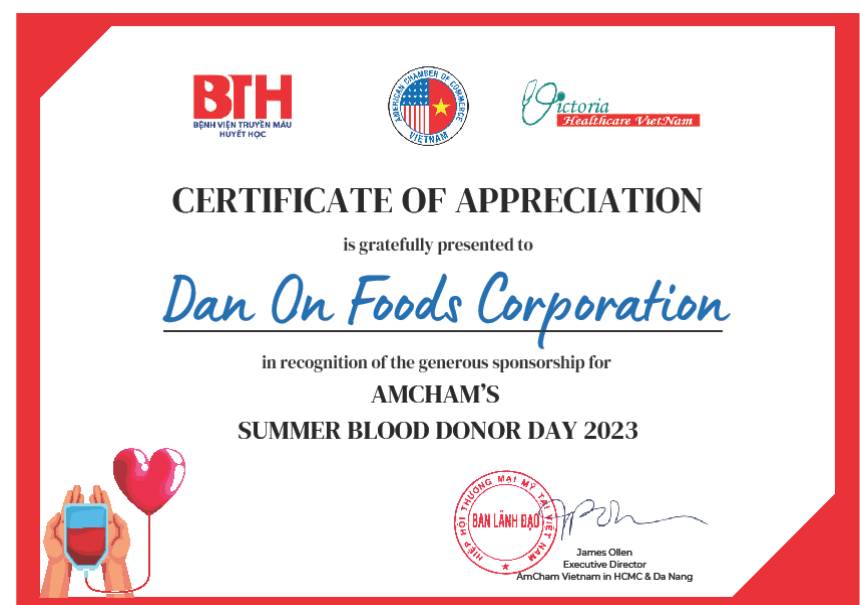

TEACH A MAN HOW TO FISH...

This year's objectives, whether they are education, health, or humanitarian, all have sustainability in mind. We hope that by being transparent and detailed in our reporting, donors can see how their sponsored projects are progressing toward the goal of being sustainable. Together, we march towards progress.
